Dear Mr. Harper,

We were delighted that the House of Commons gave unanimous consent to a motion to endorse the Five-Point-Plan for nuclear disarmament proposed by the Secretary-General of the United Nations on December 7, 2010. This was one of the best Christmas presents that the Government of Canada could bestow on Canadians!

We know that you are a strong supporter of the dignity of human life from the cradle to the grave. Nuclear Weapons are the quintessential challenge to life on earth.

We look forward to hearing that Canada's position is presented in other fora, in particular the United Nations and NATO. As you know, Canada is famous around the world for the "Ottawa Process". We have the opportunity to engage in that process now!!

Please inform us of your participation in the next steps towards abolition of nuclear weapons.

Sincerely yours,

Dale Dewar, MD
Executive Director
